This declaration of conformity is issued under the sole responsibility of the manufacturer

Regulators are used for two-position regulation of pressure, temperature and pressure difference. Limiters are devices intended for breaking electric circuit with possible simultaneous signalling in case maximum preset values of temperature pressure are exceeded. Other information and data are given in the documentation delivered with the product.

The object of the declaration described above is in conformity with:

Directive 2014/35/EU of the European Parliament and of the Council
Directive 2011/65/EU of the European Parliament and of the Council
